## School Board Approval

This plan was approved by the Wakulla County School Board on 10/21/2019.

## SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS\&I) and Comprehensive Support and Improvement (CS\&l) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS\&l, a school must have one or more ESSA subgroup(s) with a Federal Index below $41 \%$. This plan shall be approved by the district. There are three ways a school can be designated as CS\&I:

1. have a school grade of $D$ or $F$
2. have a graduation rate of $67 \%$ or lower
3. have an overall Federal Index below 41\%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate $67 \%$ or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

## Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

## Part I: School Information

## School Mission and Vision

Provide the school's mission statement
Committed to success for all students, teachers, staff and our school system.
Provide the school's vision statement
A rigorous and appropriate education that results in success for all students.

## School Leadership Team

Membership
Identify the name, email address and position title for each member of the school leadership team:

Name Title Job Duties and Responsibilities
To provide the leadership and vision necessary to develop and

## Analysis

## Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

## Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends

Grade 6 ELA learning gains and grade 6 ELA lowest quartile learning gains were the two lowest scoring areas. Grade 6 ELA has been the weakest area for multiple years. The test structure changed and the school was unaware of the strand shift.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline

Grade 8 ELA learning gains dropped $23 \%$ from $75 \%$ to $52 \%$. Two factors may have contributed to the drop. Changes to the grade 8 ELA staff and changes to test structure may have contributed to this drop. Students tend to struggle more with the integration of knowledge portion of the FSA. This portion of the test increased from 17.3\% in 2017-2018 to 26.9\% in 2018-2019.

## Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends

8th Grade Geometry Achievement at WMS is 43 points higher than the state average. We only have one section of Geometry, and those students have great foundations and are fully prepared for the course.

## Which data component showed the most improvement? What new actions did your school take in this area?

Grade 6 Mathematics learning gains increased 15\% from 50\% to 65\%. Changes were made to the master schedule to allow three highly effective teachers to teach all of grade 6 math. These teachers collaborated to plan highly engaging lessons that covered the standards.

## Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern? (see Guidance tab for additional information)

A potential area for concern when reflecting on the EWS data are the 21 students who display two or more indicators in 6th and 7th grade. There are multiple RTI behavior students that coincide with these points of data. We need to ensure that these students, three of whom are retainees, are identified and targeted for appropriate interventions. We also have multiple double-retainees, four of which are in 6th grade, one in 7th grade, and one in 8th grade.

A second concern is our amount of level 1 s on the FSA. We currently have 41 in 6th grade, 38 in 7th grade, and 33 in 8 th grade. We need to ensure that we are identifying these students and monitoring their progress through the intensive programs at WMS.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year

1. 6th Grade learning gains
2. 6th Grade lowest quartile
3. 6th Grade ELA proficiency
4. 
5. 

Part III: Planning for Improvement
Areas of Focus:

To support Reading and Writing achievement target goal of 70\% of students scoring proficient on the Florida Standards Assessment (FSA) - ELA
Wakulla Middle School scored 63\% proficient on the 2019 FSA ELA. Students

## Rationale

 who are not considered proficient on the FSA ELA need extra support to gain mastery. All students will receive targeted instruction on FSA ELA subject strand "Integration of Knowledge and Ideas".
## State the measureable outcome the school plans to achieve

The intended outcome is to achieve 70\% of students mastering FSA ELA standards school-wide and to decrease the number of lowest quartile

## Person

 responsiblefor monitoring outcome

## Evidencebased Strategy

1. Achieve3000-Computer-based online reading intervention program that provides informational text articles for students to read at their independent Lexile level and answer comprehension questions based on the text.
2. READ180 - Blended-learning approach reading intervention program that provides individualized instruction to meet each student's reading needs. 3. AVID WICOR/Kagan - focused note-taking, quick writes using academic language, word walls, learning logs, Socratic seminars, philosophical chairs, weekly binder checks, critical reading strategies, developing higher order thinking questions, marking the text, rally robin, quiz-quiz-trade, show-down, numbered heads together, and fan-n-pick.
3. Teacher Coaches - a group of 8 teachers who facilitate collaboration at the school level.
4. Common Planning Time - teachers in common grade levels and content areas have the same planning period scheduled in the master schedule.
5. Common Board Configuration - board(s) in classroom with required visual aids for students. Learning Targets, academic vocabulary, standards/l Can statements, daily/weekly agenda, learning scales.
6. Response to Intervention Process - guiding students through interventions depending on areas of weakness.
7. Achieve3000 provides intensive, targeted Tier 2 interventions in reading comprehension skills/strategies such as determining main idea, citing evidence, phonics, decoding, self-monitoring, making connections, generating questions, summarizing and clarifying text for all FSA-ELA Level 2 students, and students with disabilities.
8. READ180 provides intensive, targeted Tier 3 interventions in reading comprehension skills/strategies such as determining main idea, citing evidence, phonics, decoding, self-monitoring, making connections, generating questions, summarizing and clarifying text for all FSA-ELA Level 1 students,and students with disabilities.
9. AVID WICOR/Kagan strategies assist in collaboration efforts and provide instruction in inquiry, organization, writing, and reading, for all students including students with disabilities.
10. Teacher coaches will assist in building a collaborative community to create
more engaging lessons and enrichment activities, as well as, assist with universal design for learning across all instructional and non-instructional school contexts, including students with disabilities.
11. Common Planning Time will assist with collaborative efforts between grade level content areas for vertical and horizontal learning communities.
12. Common Board Configuration allows students to know exactly what they are learning and self-assess their level of understanding of the focused reading standards with a learning target scale.
13. Response to Intervention Process - Students identified through ongoing data review as not meeting grade-level mastery will received targeted interventions according to the district's Response to Intervention process. This differentiated, targeted instruction will meet individualized student needs to maximize learning and growth.

## Action Step

1. Scheduling all Level 1 or Level 2 FSA-ELA students in a READ180 or Achieve3000 class
2. Train teachers/faculty on AVID WICOR/Kagan strategies during monthly faculty meetings
3. Teacher coaches meet on a monthly basis to coordinate additional support for teachers in the form of training, modeling, and/or co-teaching on the areas of Main Idea and Key Details, Integration of knowledge and Ideas, and

## Description

 writing using elaboration strategies.4. Monitor common boards and WICOR/Kagan strategy use in classrooms via principal walkthroughs
5. AVID Summer Institute Training
6. Progress monitoring through STAR Reading diagnostics quarterly.
7. Identify students in need of tiered intervention through ongoing progress monitoring and provide supports as determined by the district's Response to Intervention process.

Tolar Griffin (tolar.griffin@wcsb.us)

Title

## Rationale

To support Math achievement target goal of 76\% of students scoring proficient on the Florida Standards Assessment (FSA) - Math
Wakulla Middle School scored $74 \%$ proficient on the 2019 FSA Math. Students who are not considered proficient on the FSA Math need extra support to gain mastery. All students need specific targeted instruction for all Math subject strands with emphasis on "Geometry", "Expressions and Equations", "Ratio and Proportional Relationships", and "Functions".

## State the

## measureable

 outcome the school plans to achieve
## Person

 responsiblefor monitoring outcome

The intended outcome is to achieve 76\% of students mastering FSA Math standards school-wide.

Tolar Griffin (tolar.griffin@wcsb.us)

1. Accelerated Math - utilization of educational technology to assist with development of math skills
2. Intensive Math Instruction(class) - intensive, academic intervention instruction on math skills for level 1s on FSA Math
3. Ready Math - books to be used as curriculum for intensive math classes, instruction for math skills and strategies.
4. AVID WICOR/Kagan - focused note-taking, quick writes using academic language, word walls, learning logs, Socratic seminars, philosophical chairs, weekly binder checks, developing higher order thinking questions, rally robin, quiz-quiz-trade, show-down, numbered heads together, and fan-n-pick. 5. Teacher Coaches - a group of 8 teachers who facilitate collaboration at the school level.
5. Common Planning Time - teachers in common grade levels and content areas have the same planning period scheduled in the master schedule.
6. Common Board Configuration - board(s) in classroom with required visual aids for students. Learning Targets, academic vocabulary, standards/I Can statements, daily/weekly agenda, learning scales.
7. Response to Intervention Process - guiding students through interventions depending on areas of weakness.
8. Accelerated Math will be used in the Intensive Math classrooms to provide support for students not responding to core instruction. The focus is determined by STAR math data and will include explicit instruction, modeled instruction, guided practice, and independent practice for all students, including students with disabilities.
9. Ready Math books will provide visual representations, peer-assisted learning activities, think-aloud modeling, multiple examples, and gives all students the opportunity to verbalize decisions and solutions to math problems, including students with disabilities.
10. AVID WICOR/Kagan strategies assist in collaboration efforts and provide instruction in inquiry and organization.
11. Teacher coaches will assist in building a collaborative community to create more engaging lesson plans, as well as, assist with universal design for
learning across all instructional and non-instructional school contexts, including students with disabilities.
12. Common Planning Time will assist with collaborative efforts between grade level content areas for vertical and horizontal learning communities.
13. Common Board Configuration allows students to know exactly what they are learning and self-assess their level of understanding of the focused reading standards with a learning target scale.
14. Response to Intervention Process - Students identified through ongoing data review as not meeting grade-level mastery will received targeted interventions according to the district's Response to Intervention process. This differentiated, targeted instruction will meet individualized student needs to maximize learning and growth.

## Action Step

1. Scheduling all Level 1 FSA Math students in an intensive math class which will include the use of Accelerated Math and Ready Math books.
2. Train teachers/faculty on AVID WICOR/Kagan strategies during monthly faculty meetings
3. Teacher coaches meet on a monthly basis to coordinate additional support for teachers in the form of training, modeling, and/or co-teaching for increasing multiplication fluency and stamina.

## Description 4. Monitor common boards and WICOR/Kagan strategy use in classrooms via

 principal walkthroughs5. AVID Summer Institute Training
6. Progress monitoring through STAR Math and Accelerated Math assessments quarterly.
7. Identify students in need of tiered intervention through ongoing progress monitoring and provide supports as determined by the district's Response to Intervention process.

The intended outcome is to achieve 70\% of students mastering FCAT 2.0 Science standards school-wide.

Tolar Griffin (tolar.griffin@wcsb.us)

## Evidencebased Strategy

Rationale
for
Evidencebased
Strategy

1. Science curriculum - the newly selected science textbook encompasses all scientific domains tested
2. AVID WICOR/Kagan - focused note-taking, quick writes using academic language, word walls, learning logs, Socratic seminars, philosophical chairs, weekly binder checks, critical reading strategies, developing higher order thinking questions, marking the text, rally robin, quiz-quiz-trade, show-down, numbered heads together, and fan-n-pick.
3. Teacher Coaches - a group of 8 teachers who facilitate collaboration at the school level.
4. Common Planning Time - teachers in common grade levels and content areas have the same planning period scheduled in the master schedule. 5. Common Board Configuration - board(s) in classroom with required visual aids for students. Learning Targets, academic vocabulary, standards/I Can statements, daily/weekly agenda, learning scales.
5. Response to Intervention Process - guiding students through interventions depending on areas of weakness.
6. Science curriculum - use of an evidence-based curriculum/textbook will assist teachers in pacing and ensure coverage of all science standards. 2. AVID WICOR/Kagan strategies assist in collaboration efforts and provide instruction in inquiry, organization, writing, and reading.
7. Teacher coaches will assist in building a collaborative community to create more engaging lesson plans.
8. Common Planning Time will assist with collaborative efforts between grade level content areas.
9. Common Board Configuration allows students to know exactly what they are learning and self-assess their level of understanding of the focused reading standards with a learning target scale.
10. Response to Intervention Process - Students identified through ongoing data review as not meeting grade-level mastery will received targeted interventions according to the district's Response to Intervention process. This differentiated, targeted instruction will meet individualized student needs to maximize learning and growth.

## Action Step

1. Progress monitor through classroom teacher created tests
2. Train teachers/faculty on AVID WICOR/Kagan strategies during monthly faculty meetings
3. Teacher coaches meet on a monthly basis to coordinate additional support for teachers in the form of training, modeling, and/or co-teaching.
Description 4. Monitor common boards and WICOR/Kagan strategy use in classrooms via principal walkthroughs
4. AVID Summer Institute Training
5. Response to Intervention process - teachers will identify students that are struggling to meet standards via teacher-created tests and implement small group re-teach and review of standards until mastery.

for monitoring outcome

## Evidencebased Strategy

## Rationale for Evidencebased Strategy

To provide an educational environment that ensures a safe, drug free, healthy school climate both physically and emotionally for all students
Wakulla Middle School students need more support when it comes to mental health and discipline guidance.

The intended outcome is to have a physically and emotionally safe environment for students to learn in. In 2019-2020, the evidence-based strategies will decrease disciplinary referrals and incidents (lunch detentions) from 3,343 to 2,343 .

Leon Hillmon (leon.hillmon@wcsb.us)

Provide bullying awareness and mental health/social skills training to all students through 5-STAR. Students will receive 5 hours of Mental and Emotional Health education. Employ a full-time SRO and former lawenforcement guardian on campus throughout the school day. Restorative discipline routines during Teacher Advisory Period (individual class meetings). Zero tolerance talks by administration. Response to Intervention for Tier 2 and Tier 3 behavior intervention plans.
5-STAR Curriculum is an evidence-based research proven method of incorporating social skills into the middle school curriculum. This will allow students to view videos and engage in classroom discussions around the social skills in the instruction.
A full-time SRO and guardian on campus will assist in the safety and security of our campus by being present inside and outside the building.
Restorative discipline routines/circles will allow a safe environment for students to share and hold discussions around discipline and restorative justice.
Zero tolerance talks by administration will set forth clear expectations of consequences when it comes to zero tolerance behaviors.
Response to Intervention Process will help us to provide tiered intervention to identified students through ongoing progress monitoring and provide supports as determined by the district's Response to Intervention process.

## Action Step

## Description

1. Train teachers on 5-STAR curriculum and implement program
2. Train teachers on restorative discipline/justice routines (pilot program)
3. Teachers incorporate restorative justice routines during teacher advisory period (volunteer teachers for pilot program implementation)
4. Administration will speak to each grade level and team about zero tolerance behaviors
5. Office referrals, student absences, in/out of school suspensions will be progress monitored each quarter.
6. Identify students in need of tiered intervention through ongoing progress monitoring and provide supports as determined by the district's Response to Intervention process.
